# Shashikant Yadav

## Full Stack Web Developer

## Professional Summary

A results-oriented Full Stack Web Developer collaborates with managers, designers, and developers, translating project needs into scalable web apps. Proficient in MERN stack, excelling in API, frontend, and database modeling. Detail-oriented, analytical, and adept in problem-solving. Stays current in web trends, excelling in communication for cross-functional teams

## Projects

**SkillVantage**   [Live Demo Link](#)   [Github Repo Link](#)

React   Redux   Chakra-UI   Node.js   Express.js  
MongoDB

- Developed a Coursera-like platform using React, Redux, Chakra-UI, Node.js, Express.js, and MongoDB.
- Implemented a React/Redux architecture to manage the state of the application.
- Integrated Chakra-UI to create a responsive design for the platform.
- Implemented CRUD operations for the Admin Dashboard, allowing administrators to manage courses and content.
- Developed the login and signup pages with Redux, ensuring a smooth user authentication process.

**Credit Folio**   [Live Demo Link](#)   [Github Repo Link](#)

React   Redux   Chakra-UI

- Developed a modern web application using React, Redux, and Chakra-UI for managing credit scores and related data
- Implemented CRUD operations for Admin Dashboard, allowing the admin to add, edit, and delete credit scores
- Integrated Chakra-UI to enhance the design and user experience of the application
- Implemented user login and signup functionality using Redux for state management
- Developed sorting and filtering functionality to easily manage and analyze credit scores
